

Prompt: For Public Speaking using PREP method

I want to learn the PREP method for speaking clearly. Please guide me step-by-step. First, explain PREP briefly (Point → Reason → Example → Point) in simple language.

Then ask me these questions one by one for my topic:

1. What's your main point?
2. Why do you believe that?
3. Can you give one short example?
4. Can you restate your point in one line?

After I answer, please create a polished 30–60 second speech using the PREP structure and give me 2–3 quick tips to improve it. I feel nervous speaking so you need to guide me in a very simple manner.

My topic is: **My Favourite Food: Biryani**

Prompt: For Public Speaking in general and having real conversations

I want to improve my speaking skills by practising with you like a real conversation partner. Please help me speak more clearly, confidently, and naturally.

I will choose a simple topic to speak on.

Here's what I need you to do:

1. Ask me to speak for 30–60 seconds on my chosen topic.
2. After I respond, analyse my 'spoken' message and tell me:
 - What I did well
 - What made my speaking unclear
 - One key improvement I should focus on next time
3. Keep your feedback short, practical, and beginner-friendly.

My topic is: **What is the best way to relax after a busy day?**
