

Prompt - Summarizing Meetings

I will give you a meeting summary. Please turn it into a clear, actionable set of outputs.

From my summary, create:

1. A clean post-meeting summary
 - Key decisions
 - Important points discussed
2. An action-item list
 - Owner
 - Deadline
 - Next step
3. A follow-up tracker I can copy
 - Task
 - Owner
 - Status
 - Due date
4. A short 'meeting insights' section
 - What worked well
 - What needs follow-up
 - Any risks or blockers

Keep everything concise and easy to use.

Here is my meeting summary:
