

Prompt 1 : Prioritizing tasks using the Eisenhower Matrix

Act as a productivity coach and help me prioritize my tasks using the Eisenhower Matrix. Here are my current tasks:

(Sample tasks added in the end)

Please sort them into the 4 Eisenhower Matrix categories:

- 1. Urgent & Important (Do First)**
- 2. Important but Not Urgent (Schedule)**
- 3. Urgent but Not Important (Delegate if possible)**
- 4. Neither Urgent nor Important (Eliminate)**

For each task:

- Explain *why* it fits that category
- Tell me the exact action I should take (Do, Schedule, Delegate, or Eliminate)

Make the priorities clear and give me 3 quick tips to reduce future urgency.

Prompt 2 : Prioritizing tasks using the Do-Defer-Delete Framework

I have a list of tasks and I need help organizing them using the Do–Defer–Delete method. Here are my tasks:

(Insert your tasks here, one per line.)

Please categorize each task into:

- **DO** – urgent and important (do these now)
- **DEFER** – important but not urgent (schedule for later)
- **DELETE** – not important (remove or ignore)

For each task:

- Assign the correct category
- Briefly explain why
- For **DEFER** tasks, suggest when I should schedule them
- Present everything in a clean, easy-to-read table or list

Keep the output simple, clear, and actionable.
